

Annexon Announces Pricing of \$125 Million Underwritten Public Offering

June 6, 2024

BRISBANE, Calif., June 05, 2024 (GLOBE NEWSWIRE) -- Annexon, Inc. (Nasdaq: ANNX), a biopharmaceutical company advancing a late-stage clinical platform of novel therapies for people living with devastating classical complement-mediated neuroinflammatory diseases of the body, brain, and eye, today announced the pricing of its previously announced underwritten public offering of 13,001,120 shares of its common stock at a price to the public of \$6.25 per share and, in lieu of common stock to certain investors, pre-funded warrants to purchase 7,000,000 shares of common stock at a purchase price of \$6.249 per share, which equals the public offering price per share of the common stock less the \$0.001 exercise price per share of each pre-funded warrant.

The total gross proceeds to Annexon are expected to be \$125.0 million, before deducting underwriting discounts and commissions and other offering expenses payable by Annexon. The offering is expected to close on June 7, 2024, subject to the satisfaction of customary closing conditions. In addition, Annexon has granted the underwriters a 30-day option to purchase up to an additional 3,000,168 shares of common stock.

J.P. Morgan, Jefferies, TD Cowen, BofA Securities and Wells Fargo Securities are acting as joint book-running managers for the offering.

The shares are being offered by Annexon pursuant to a shelf registration statement on Form S-3, including a base prospectus, that was filed with the Securities and Exchange Commission (SEC) and declared effective by the SEC on April 1, 2024. The offering is being made only by means of a prospectus supplement and the accompanying prospectus that will form a part of the registration statement. These documents can be accessed for free through the SEC's website at www.sec.gov. Copies of the final prospectus supplement and the accompanying prospectus, when available, may be obtained from: J.P. About Annexon

Annexon Biosciences (Nasdaq: ANNX) is a biopharmaceutical company advancing a late-stage clinical platform of novel therapies for people living with devastating classical complement-mediated neuroinflammatory diseases of the body, brain, and eye. Annexon's novel scientific approach targets upstream C1q to block the classical complement inflammatory cascade before it starts, and its therapeutic candidates are designed to provide meaningful benefits across multiple autoimmune, neurodegenerative and ophthalmic diseases. With proof-of concept data in Guillain-Barré syndrome, Huntington's disease and geographic atrophy, Annexon is rigorously advancing its mid-to late-stage clinical trials to bring new potential treatments to patients as quickly as possible.
