**About Annexon**
Annexon Biosciences (Nasdaq: ANNX) is harnessing neuroinflammation to advance potentially first-in-kind treatments for millions of people living with serious neuroinflammatory diseases of the body, brain and eye. Our novel scientific approach focuses on C1q, the initiating molecule of a potent inflammatory pathway that when misdirected can lead to tissue damage and loss. By targeting C1q, our immunotherapies are designed to stop neuroinflammatory diseases where they start. Our pipeline spans three diverse therapeutic areas – neurodegenerative, ophthalmic and autoimmune diseases – and includes investigational drug candidates designed to address the unmet needs of over 8 million people worldwide. Annexon's mission is to deliver potentially game-changing therapies to patients so that they can live their best lives. When they thrive, we thrive. To learn more visit annexonbio.com.
